MRS. HEARST GOES BY IN THE DORIC

Owing to the lateness of her arrival off Oahu on Tuesday night the Doric remained in the Molokai channel all night coming into port at 9 o'clock yesterday morning. The liner experienced a couple of days of rough weather. Two passengers, Mrs. F. P. Rust and Chas. Schlesinger, will stay here for a short time. The vessel steamed away for Yokohama at 5 p. m. yesterday carrying about 150 Japanese.

The Doric carries a general cargo valued at \$438,326, exclusive of treasure and distributed as follows: For Japan, \$69,000; China, \$357,051; Philippine Islands, \$4,233; East Indies, \$2,300; Korea, \$3,563; Vladivostok, \$60. The steamer's hold is crammed with general freight amounting to 5,000 tons and including 2,500 tons of flour and 5,500 bales of sheeting.

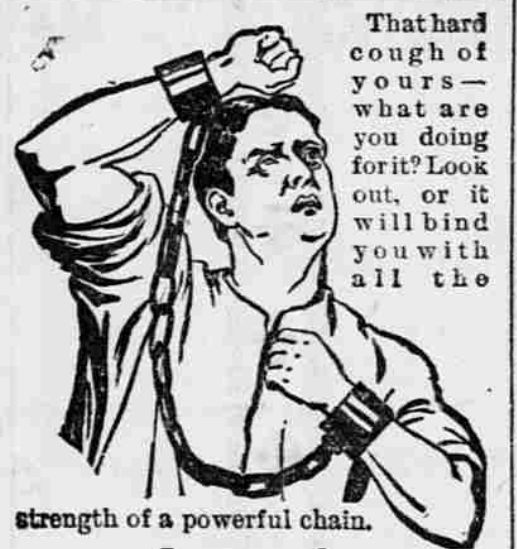

David Blair, formerly third officer of the Doric, is now the second officer. He succeeded Arthur O'Neil, who has remained over for a trip. J. Lyon of Liverpool is third officer.

There are 190 Chinese in the steamer, of whom ten were deported from San Francisco. Among them was Pon Yung, a student. Pon arrived at San Francisco some time ago and proceeded to San Diego, where he is said to have been faithfully preparing himself to enter Pomona college. Pon's funds fell short, and in emulation of the American student, the Chinese sought to maintain himself by work. The fact that the Celestial, admitted as a student, was performing manual labor, was reported to the Chinese Bureau.

Pon was promptly arrested, tried, ordered deported and is now on his way back to China to think up some different method for securing an Occidental education.

Mrs. Phoebe Hearst was a prominent passenger. She is en route to Japan and India on a six months' pleasure trip, and is accompanied by Mrs. Clara Reed Anthony, a friend of earlier years. Mr. and Mrs. H. M. Rogers of Boston are also of the Hearst party, and it will be joined in India by Orrin Peck.

Mrs. A. White, of Fitzroy, Victoria, says: "I had a very hard cough night and day. I tried many remedies, but without relief. I thought my lungs were nearly gone. I then tried Ayer's Cherry Pectoral. I began to improve at once, and only one and one-half bottles completely cured me."

There are many substitutes and imitations. Beware of them! Be sure you get Ayer's Cherry Pectoral.

KEEL RIPPED FROM BOW TO RUDDER

The three-masted schooner Ottilie Ford, whose experience in piling upon the "Clavering reef" last Friday night almost proved fatal, was placed on the marine railway yesterday, and the extent of the damage to the hull was ascertained. The entire keel was ripped, splintered and torn in a manner to indicate that during the schooner's enforced stay on the reef the entire bottom had been in contact with the coral. A new keel will have to be built on, and a gang of workmen is now engaged in making the necessary repairs. The boat will be suspended on supports so that the work on the keel can be done. It is expected the schooner will be off the ways the latter part of next week.

Typhoon Hit Searle.

SEATTLE, Oct. 2.—The schooner Robert Searle lost her second mate and a seaman and was badly battered about in a typhoon one day out from Haiphong, on her voyage to that port from Seattle. She arrived last night from the Oriental port. Many of her seams were open and out of them poured the water that had leaked into the vessel's hold during the voyage. Barnacles several inches thick clung to her bottom. Her rigging and other portions of the schooner bore evidence of the terrible experience she had been through.

The schooner came back without Second Mate Andrew Johnson and Seaman Antonio Bergoso, who went to watery graves during the storm. Mate Anderson is not yet fully recovered from injuries received at the time. A bent iron rail on the vessel shows where his head struck when he was caught by a mountainous sea and jammed against it.

S. S. Company Squeezed Out.

SAN FRANCISCO, Oct. 3.—A significant fact came to light yesterday in the raising of the Chinese steamer rates from San Francisco to China from \$4 to \$4.50. The advent of the China Commercial Company in the carrying trade of coolies led to a rate-cutting war between the steamship companies

plying between this port and the Orient. The China Commercial Company put four vessels on the run between Hongkong and Manzanillo, Mexico, early in the year, conveying a large number of coolies to Mexico.

On the return trip to China the vessels of the China Commercial Company called at San Francisco and made a strong bid for Chinese passengers and freight. The new corporation cut rates and the Pacific Mail, Toyo Kisen Kaisha and Occidental and Oriental companies followed suit in order to maintain their prestige. Two months ago the China Commercial Company withdrew all its vessels from the China-Mexico-San Francisco route. The Mexican Government had withdrawn its concession for the landing of coolies and the new steamship company found itself without any business.

The Pacific Mail, Toyo Kisen Kaisha and Occidental and Oriental companies have frowned upon the entrance into the field of a rival and it is stated that the three corporations used every possible influence to induce the Mexican Government not to again grant the China Commercial Company the concession to land coolies.

The raising of the rates for Chinese from San Francisco to China is looked upon in local shipping circles as a sure sign that the opposition of the China Commercial Company is a thing of the past. The local agents of the three big companies state that they have raised the rates because they have no opposition and do not fear any in the future and ridicule the claims that the Mexican Government will again allow Chinese laborers to be brought to Mexico by the China Commercial Company.

Steamer for Tacoma

TACOMA, Oct. 5.—R. A. Alley returned today from London, where he concluded arrangements for the inauguration of a new trans-Pacific steamship line between Tacoma and Vancouver and Australian ports. The headquarters of the line will be in London, but the stockholders include a number of wealthy Australians and New Zealand planters and wool growers.

Three steamships have been chartered. The steamship Maru King is to be the first steamer on the route, and is now undergoing a thorough overhauling at Cape Town. She goes to Australia first, and will arrive here about December 20th. Monthly sailings will follow.
